

How the locks function at Fredensgade Kollegiet!

Long sign with scanner on the doors

Wall scanner on gates

As a resident at Fredensgade Kollegiet you will not receive a key to your door. All the doors at the hall of residence are supplied with electronic keys. Instead of a door you will receive a KEY CARD.

In order to unlock your door you move your the door or the wall.

key card over the scanner on

When you activate the lock you can receive the following information:

- Move the key card over the scanner once.
Green light (after approx. 1 sec.) Access given.
Red light (after approx. 1 sec.) Access denied.
- NB: If you accidentally quickly move the keys card over the scanner twice, the door is not locked!!!
Green light blinks.
- The door is locked if you again quickly move the key card over the scanner twice.
- **Green light blinks and red light is constantly on.**
- If the batteries are running out, contact the caretaker.
- **Green and red light blinks.**
- NB: Remember your keycard when you leave your flat.
