

Ravnsbjerg Kollegiet

Referat af beboermøde den 30.03.26.

- * **Overall Budget Reduction:** Total expenses have dropped by **44%** (from 10.8M to 6.1M DKK). We are now operating a much leaner organization.
- * **Utilities:** Costs for electricity, heating, and administration have plummeted because we are no longer powering or managing the closed sections.
- * **Future-Proofing (Maintenance):** Despite being smaller, we are doubling our savings for future repairs (**2.6M DKK** allocated to PPV).

Meeting notes:

- Gustav and Milena have become board leaders.
 - The Resident council leader would like to sit in as well sometimes, without the ability to vote.
- Benches need a brush up outside of Moltkesvej paid by PPV? (maybe we can convince Simon to do it)
- Sauna will be rebuilt according to Mads; the resident council backs that idea.
- Multimedia room will stay as is.
- As talked with Mads the board would be very interested in removing the wall between the music room and the Storage and turn it into a study room.
- 49.000 DKK available on the 1 of August. From last year.
 - Maybe use the money for the place outside of the bar, tents, grills, events?
- Access for all board members to the MM room
- Gustav will become responsible for MM room and rental of the MM room.
 - Make an auto answer for people asking "The renter will respond at the latest in 7 business days"
- Milena will be the cashier
- Instead of a cleaning company we would like a student cleaning common room, since its cheaper.
