

# Building 51E Cleaning Duty Schedule

## General Information

Clean, ready-to-use mops and cloths are made available in the laundry room of the common house.

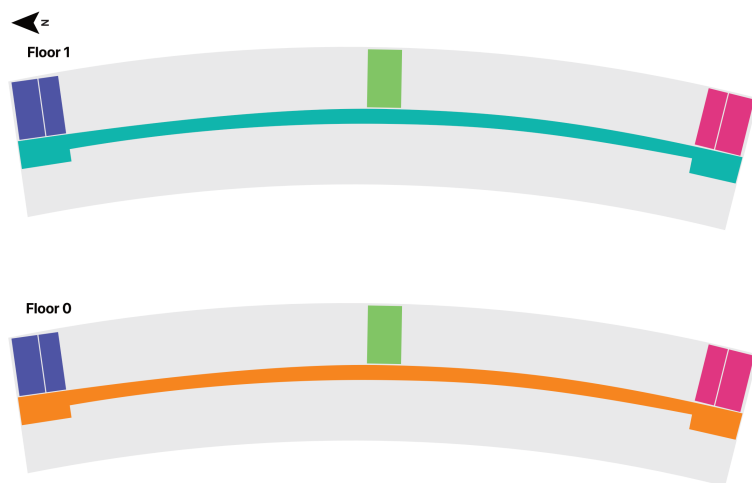

Cleaning duties are expected to be carried out on Tuesday (preferably afternoon/evening), as quality control checks are conducted Wednesday morning by the dorm caretaker.

If neglected, the resident is notified by SMS. Unless corrected prior to Thursday morning, a commercial cleaning service is ordered at the resident's expense (added to upcoming rent).

Week numbers follow ISO 8601. Week 2 begins on the first Monday occurring after 1 January.

## Cleaning Sectors

In your assigned weeks, you are responsible for cleaning all of the area(s) corresponding in color:

|       |                                                                                                                                                                                                        |

# Building 66 Cleaning Duty Schedule

## General Information

Clean, ready-to-use mops and cloths are made available in the laundry room of the common house.

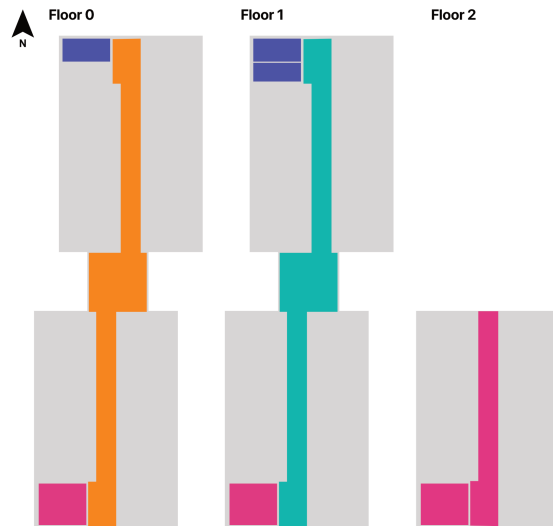

Cleaning duties are expected to be carried out on Tuesday (preferably afternoon/evening), as quality control checks are conducted Wednesday morning by the dorm caretaker.

If neglected, the resident is notified by SMS. Unless corrected prior to Thursday morning, a commercial cleaning service is ordered at the resident's expense (added to upcoming rent).

Week numbers follow ISO 8601. Week 2 begins on the first Monday occurring after 1 January.

## Cleaning Sectors

In your assigned weeks, you are responsible for cleaning all of the area(s) corresponding in color:

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                     |
